ENJOY VIEWING HYDRANGEAS IN THE RAIN

In Japan, there is a season called “TSUYU (梅雨)” which means “Rainy Season”.

Tsuyu lasts from the beginning of June to Mid-July.

Tsuyu is a notoriously wet and humid season.

However, one positive aspect of Tsuyu is Hydrangeas, which look even more elegant with having a few raindrops on their petals.

People enjoy viewing hydrangeas in the rain.

In addition, the rain enhances the rich, tasteful atmosphere of some of the traditional old Japanese temples and gardens.

RJGG (Chubu Centrair)

Easy to get slots and parking spots, good service availability

Slot Application: Slots can be applied for anytime, but their availability will be released at the end of each month for the next month's operations.

Operational Hours: 24hrs

CIQ Hours: 24hrs

Parking Restriction: None, but aircraft may not be able to stay at the same spot from arrival through departure if it parks for a long period. Aircraft may be required to move to an overnight parking spot.

Business Aviation Terminal: Available (Free of charge), but advanced coordination with CIQ is required.

RJNA (Nagoya Komaki)

A Nagoya-area airport closer to downtown than RJGG

Easy access to aircraft through a dedicated business jet terminal

RJNA is run by Aichi prefecture and is NOT an Airport of Entry. However, it is the first airport with a dedicated BJ Terminal in Japan. International arrivals/departures can be arranged. Located in the north, RJNA offers fast access from/to Nagoya (15~20 min by car). Aircraft parking is a short distance from/to the BJ terminal (70m/230ft).

Slot Application: No advance booking of slots is required. However, a parking spot should be reserved in advance. Parking spots for the next month can be

secured from the first day of this month.

Operational Hours: 0700L – 2200L (2200Z – 1300Z)

CIQ Hours: Advanced coordination is required as CIQ is not regularly stationed here. CIQ officers come to the airport based on request. 3 days advanced notice is required.
