The announcement of the revision of handling fee related to the consumption tax hike in Japan and our new fees on extra manpower.

The consumption tax in Japan has been raised from 8 to 10 percent from 01 Oct 2019. Also, we would like to announce our price changes associated with this tax increase starting this month (applicable to the flight departing on/after 1st of OCT 2019).

First, 10 percent will now be added to all the taxable items in your invoice.

Second, our third party fees will be increased due to the tax hike as well. We have been working on reducing our internal cost to make the basic handling fee remain as low as possible, and this fee will not change. Instead, we have decided to start the new charges below.

A: Additional manpower charges for all the airports in Japan

For the flights with 8 PAX or above on arrival or departure : 10,000JPY

For the flights with 8 PAX or above on arrival and departure : 20,000JPY

B: Winter additional manpower charges for RJCC between 1st Dec – 31st Mar.

For PAX flights on arrival or departure : 20,000JPY

***this is separate from A. For the PAX flights operating to RJCC with 8 PAX or above will be charged both A and B.**

***Please note the charges may change depending on the number of baggage or handling conditions.**

We appreciate your understanding in these price changes.
